## Get a free bandwidth upgrade for the R&S®RTO2000 or the R&S®RTP

Rohde&Schwarz understands the importance of bandwidth, so when you purchase the R&S®RTO2000 or the R&S®RTP oscilloscope, we will upgrade it one bandwidth level, for free!

### Why bandwidth matters?

We at Rohde&Schwarz know that bandwidth is key when it comes to oscilloscopes. You need it in many different applications, such as testing power electronics, EMI debugging or even high-speed serial protocol testing.

We want to make your life and job easier and are offering you a bandwidth upgrade.
