SAVE MONEY AS AN EARLY ADOPTER

To celebrate the introduction of the R&S®RTO6 oscilloscope on July 1, 2021, Rohde&Schwarz is offering a trade-in promotion for the R&S®RTO1000. This was the first ever oscilloscope from Rohde&Schwarz and launched in 2010. We want to reward the trust that early adopters of R&S®RTO class oscilloscopes placed in Rohde&Schwarz corporate values and T&M instruments.

Any R&S®RTO1000 – regardless of its channel count or bandwidth – can be traded in when purchasing a new R&S®RTO6. The following discounts are available:
