35% Discount on Power Probes

- Buy any two power probes and receive 35% discount, or alternatively
- Receive 35% discount on any two power probes plus power software solutions (MD03PWR /MD04PWR) when ordered with any MD03000 or MD04000 Oscilloscope

Tektronix Power Probes

- Industry's broadest range of AC/DC and AC-only current probes
- High and medium voltage differential solutions to support varying dynamic range and measurement resolution requirements
- High-speed differential probing systems providing the easiest connectivity and highest signal fidelity for serial bus PHY measurements
- Best in class high voltage probes with loading input capacitance as low as 1.8 pF
- Tektronix low voltage single-ended probe solutions offering bandwidths up to 4 GHz, very high input impedance with low input capacitance (<1 pF)

*MDO4000C Series
 Mixed Domain Oscilloscopes*

	MDO3000 Series	MDO4000C Series
Bandwidth	100 MHz – 1 GHz	200 MHz – 1 GHz
Analog Channels	2 or 4	4
Record Length	10 Mpoints	20 Mpoints
Spectrum Analyzer	Same as rated scope bandwidth (standard)	3 or 6 GHz with time correlation (optional)
Digital Voltmeter*	4-digit	4-digit
Display Size	9.0"	10.4"
Starting Price	€3,180 / £2,510	€6,520 / £5,000

Terms and Conditions

Offer cannot be combined with any other Tektronix Probe discounted promotion. Offer is valid in Europe, Middle East and Africa only. Promotion is valid from November 8th to April 30th 2017.
