

Time limited offer

ScopeCorder Input Modules

Buy 3 ScopeCorder modules and get the 3rd module for half price*

Adapt to your next measurement application

The ScopeCorder platform is designed to enable you to expand the measurement capabilities of your ScopeCorder by simply adding new modules.

The flexibility of the ScopeCorder platform allows you a modular setup of up to 8 different modules in one system. You can select any of the 19 available modules, covering:

- Voltage and current
- Temperature, vibration/acceleration, strain and frequency
- Logic and CAN/LIN/SENT** bus signals
- Sensor outputs (using scaling functions)

*Offer valid until the 30th September 2016 in Europe. Not valid in combination with other ScopeCorder offers. Valid for any combination of 3 out of 19 available modules. Discount applies to the lowest priced module.

** Input modules compatible with the DL850V / DL850EV only.
